TERMS OF SALE

1. Unless specifically otherwise agreed, all products are sold ex seller's warehouse, Holland, and travel throughout at buyer's risk and expense.
2. If products are sold ex seller's warehouse, the cost of cases and packing and of Netherlands phytopathological inspection, and of any freight, forwarding, insurance, export and import charges, shall be for buyer's account. These charges shall be due and payable on arrival of the goods at United States or Canadian port.
Unless otherwise instructed, the seller will arrange for transportation and for ordinary insurance coverage to destination.
3. Payment shall be due ninety (90) days from date of invoice; two percent (2%) discount will be allowed for payment within thirty (30) days from date of invoice; interest at the rate of six percent (6%) will accrue on all amounts due and owing after due date. In the event accounts are referred to collection agencies and/or attorneys for collection procedures, all costs, charges and expenses of collection shall be for the amount of the buyer.
4. The seller warrants the goods to be sound and healthy at time of shipment but does not otherwise warrant flowering- or other planting-, growing- or forcing results.
5. If at time of shipment the buyer shall be in default of payment of any account owing to any exporter of Holland Bulbs or if the buyer's financial responsibility appears unsatisfactory to the seller, the seller may, at his option, cancel this order in whole or in part, provided that he shall promptly advise the buyer of any such cancellation; and the seller shall not be responsible for any damages whatsoever arising from such cancellation.
6. Total or partial failure of the general or of seller's crop, owing to frost, floods, or other natural causes, or loss or damage to seller's stocks by fire or any other cause beyond his control, preventing seller from fully performing the present and/or similar contracts, shall relieve the seller from his obligations under the present contract to a corresponding extent.
7. Whenever the terms of this order call for delivery f.o.b. any place or conveyance in the United States or Canada, the seller shall be required only to arrange for transportation and insurance to the point specified and the seller may, at his election either prepay freight, insurance and/or other shipping charges, including import duty and arrange to collect same on delivery in a lump sum from the buyer, or the buyer shall pay all such charges from warehouse Holland until arrival at such agreed place or conveyance in the United States or Canada. In either case buyer shall be permitted to deduct the charges paid by him to such agreed f.o.b. United States or Canada place or conveyance from the agreed f.o.b. United States or Canada prices.
Notwithstanding any agreement as to delivery at any point other than seller's warehouse, the goods shall in all cases be at buyer's risk from the time they leave the initial point of shipment.
8. All claims hereunder shall be deemed waived unless presented within eight (8) days after receipt of goods. Claims relating to damage to or condition of goods shall be accompanied by Lloyd's survey report or its equivalent, stating full particulars. In case of non-arrival of goods at destination within a reasonable time after receiving advice of shipment from Holland, buyer shall notify the seller by wire or cable.
9. Cancellation of orders or part thereof will only be accepted when buyer agrees to pay seller his loss of profit; changes in orders may be allowed only if both parties agree thereto.
10. These printed Terms of Sale cannot be altered nor departed from except by mutual consent in writing.

This list cancels all previous quotations.

Hyacinths

Hyacinths are used for forcing and are also excellent for the garden. The Springgarden is not complete without Hyacinths.

Where planted in beds and borders they always attract attention with their bright, cheerful colors.

Hyacinths

LIST OF VARIETIES

PINK

- *ANNA MARIE, clear pink, very early
- *CROWNPRINCESS MARGARET, pink, large spike,
- *DELIGHT, light pink, good for early forcing
GERTRUDE, rosy pink, compact flower, medium early
- *LADY DERBY, fine light pink, large bells, fine shaped bulb
- *MARCONI, rosy pink, good for later forcing
- *PINK PEARL, deep rosy pink, large spike, early. One of the best pink
Hyacinths
- *PRINCESS IRENE, light rose, sport of Pink Pearl
- *QUEEN OF THE PINKS, lovely bright rosy pink; large spike of fine
bells, late forcer. Also good for bedding

RED

- CYCLOOP, carmine red, large bells, medium late
- *JAN BOS, beautiful scarlet, very early
- *LA VICTOIRE, brilliant carmine red, large spike, early

WHITE

- *ARENTINE ARENDSSEN, pure white, large spike and large bells, very
early
- *CARNEGIE, pure white, broad compact spike, late forcing
- *EDELWEISS, pure white, sturdy broad compact spike
- *L'INNOCENCE, pure white, broad, loose spike of elegant form, very
large well shaped bells, early and excellent for forcing. The most
popular of all white Hyacinths
- QUEEN OF THE WHITES, pure white, splendid spike, good for late
forcing

YELLOW

- *CITY OF HAARLEM, yellow, large spike, extra fine
PRINCE HENRY, yellow, large broad spike
- *YELLOW HAMMER, yellow, large broad spike

LIGHT- AND DARK BLUE

- *BISMARCK, skyblue, large spike, excellent for early forcing
- *DELFT BLUE, bright porcelain blue, compact spike
- DR. STRESEMANN, bright blue, large flower
- *GRAND MAITRE, fine deep porcelain blue
- *KING OF THE BLUES, the best dark blue, with splendid, well formed large spike on short stem; late forcer
- *MYOSOTIS, pale blue, long spike. Good forcer
- *OSTARA, fine porcelain blue, early forcer
- *PERLE BRILLANTE, fine lavender blue, large spike
- *QUEEN OF THE BLUES, light blue with silvery shade

VIOLET

- *AMETHYST, soft violet
- *LORD BALFOUR, purplish violet

FAIRY HYACINTH

- *BORAH (multiflowered Hyacinth), porcelain blue

Preventing spitting or casting of buds ("loose buds").

Some varieties may "spit out" or drop flower buds. These "loose buds" are developed while the bulbs are in the plunging bed. To avoid them:

- a) Do not plant too early.
- b) Check the drainage in the plunging bed. Make sure bulbs are not getting too much water.
- c) Do not let the temperature in the plunging bed get much higher than 48° F. especially about 6 to 8 weeks after planting bulbs.

If the weather is cold at the time when the pots are transferred from the plunging bed to the greenhouse, the transferring should then be done very quickly.

How to order Hyacinths

We offer our Hyacinths in various sizes listed as follows.

The prices for the leading varieties are:

p. 1000
\$

TOP SIZE HYACINTHS

In this size we offer the largest bulbs which the harvest produces, carefully selected bulbs, producing large flowers. They are excellent for single pots.

FIRST SIZE HYACINTHS

This size can also be used for single pots and is the best size for growing on glasses.

SECOND SIZE HYACINTHS

This size we can specially recommend for general purposes, these bulbs are excellent for growing in pots, pans and gardening.

THIRD SIZE HYACINTHS

This size Hyacinths is recommended for planting 3 or more bulbs in a pan or forcing in flats.

BEDDING HYACINTHS

This size is very popular for outside planting. The flowers are not so heavy and will therefore stand rainy and windy weather better.

MINIATURE HYACINTHS

Miniature Hyacinths produce graceful flowers and are therefore very suitable for cutflower purposes.

FAIRY HYACINTHS

[illegible]

Prepared Hyacinths

for early forcing

These Hyacinths are treated in a special way, which makes them well suitable for early forcing. They should be potted directly after arrival. With their early flowers, these Hyacinths offer a welcome material when other Hyacinths and Tulips are not yet in bloom. Prepared miniature Hyacinths are suitable for early cutflowers.

Orders for prepared bulbs must reach us before June 1st.

ANNA MARIE, clear pink	p. 1000
JAN BOS, beautiful scarlet	\$
LADY DERBY, light pink	
PINK PEARL, rosy pink	1st size
	2nd size
ARENTE ARENDSSEN, pure white	3rd size
L'INNOCENCE, pure white	Selected min.
BISMARCK, sky blue	Miniature
DELFT BLUE, bright porcelain blue	
OSTARA, fine porcelain blue	

Single Early Tulips

Besides their value for forcing, early Tulips with their flashing colors always make a splendid striking effect in any garden, whether planted in beds or smaller groups in borders.

p. 1000
\$

- *BELLONA, pure golden yellow, good for forcing
- *BRILLIANT STAR, brilliant scarlet, black center, very early
BRILLIANT STAR MAXIMA, larger form of Brilliant Star ..
- *COULEUR CARDINAL, brilliant crimson, slightly dewed out-
side. Grand variety for late forcing and bedding
- CROWN IMPERIAL, mahogany red, edged golden yellow ..
- *GENERAL DE WET, orange, one of the most effective varieties
for forcing and bedding, sweet scented'
- *IBIS, splendid deep rose, early
- *KEIZERSKROON, bright red with broad golden yellow border
OLYMPIADE, golden yellow; good forcer and bedder, strong
stem
- PINK BEAUTY, deep rose with white flush outside, very large
- *PRINCE CARNIVAL, red, flamed yellow, sport of Prince of
Austria
- *PRINCE OF AUSTRIA, fine orange red, brilliant scarlet
inside, very sweet scented, for forcing and bedding
- *SUNBURST, orange-yellow, flushed red, fine for bedding ..
- URSA MINOR, deep golden yellow;
- VAN DER NEER, clear deep violet, fine large flower
- WHITE HAWK, pure white
- WINTERGOLD, deep lemon yellow
- SEPARATE COLORS
- SUPERFINE MIXED, ALL COLORS

Tulips

ARE IDEAL
CUTFLOWERS

Double Early Tulips

These Tulips bloom a little later than single early Tulips. Their double flowers have a beauty all their own, which makes them so suitable for pot plants.

They are also excellent for planting in beds or borders.

p. 1000

\$

BONANZA, carmine-red, edged yellow	
BOULE DE NEIGE (Snowball), large pure white

Triumph Tulips

These Tulips result from crossings between Darwin- and later flowering varieties of the early Tulips. Their flowering time is just in between these two classes.

Most Triumph Tulips have large flowers and strong stems and are of medium height which makes them very useful for beds. Some varieties are well known for forcing and the short stemmed kinds, such as Denbola are fine for Easter pots.

Darwin Tulips

"HIGHLIGHTS OF THE GARDEN"

No other Tulips equal the Darwin Tulips in splendor and usefulness for various purposes.

Introduced into Holland some seventy years ago, Darwin Tulips soon found their way into gardens all over the world and were eagerly accepted by the floristtrade. Demand increases from year to year. Since their introduction, many beautiful new varieties have been developed and were received with enthusiasm by the public, but some of the first introduced varieties, such as Clara Butt, Farncombe Sanders, La Tulipe Noire, Pride of Haarlem and others still rank high among the popular varieties.

Blooming in May, carried on strong, erect stems, the Darwin Tulips with their stately beauty and gorgeous colors, red, pink, lavender, purple, black, yellow and white are ideal for all garden purposes and excellent for cutflowers. Many varieties can also be successfully forced for cutting and in pots and pans. Some for Valentine Day and others for Easter pots.

When planted under so called "cold glass" in good soil, and thus coming into bloom protected from bad weather, Darwin Tulips will produce a rich crop of clean strong flowers before the bulbs grown outside are in bloom.

- AFTERGLOW, fine orange rose with distinct orange edge ..
- *ALL BRIGHT, fine bright red sport of Bartigon
- *ARISTOCRAT, dark violet rose, edged lighter
- *BARTIGON, clear crimson red, one of the best for late forcing
- BARTIGON MAXIMA, larger flowers than Bartigon

- *RED MATADOR, carmine scarlet
- ROOSEVELT, clear orange-red, extra large wellformed
flower
- *SPRING SONG, bright red, flushed salmon, white base

Single Late or Cottage Tulips

The older varieties of this class, were found in Cottage Gardens in England. Many fine, new varieties have been added to this class by hybridizing.

Cottage Tulips have various shaped flowers and habits and are splendid for gardening purposes and cutflowers.

Some varieties are also extensively used for forcing.

p. 1000

*UNCLE TOM, dark glittering red, extra double	
COLLECTION OF BEST NAMED VARIETIES, our choice ..	

Parrot Tulips

The ever increasing demand for these Tulips clearly shows the growing appreciation for the remarkable beauty of the Parrot Tulips with their elegant lacinated flowers.

They bloom in May.

On account of their large, heavy flowers Parrot Tulips are not recommended for planting in beds. In groups and in borders, they are very effective. Excellent for cutflowers. Placed in shallow bowls or dishes when cut, they make a very artistic effect on tables.

p. 1000

- TURKESTANICA, white, orange yellow center, bunch-
 flowering

Breeder Tulips

Breeder Tulips are one of the oldest classes of Tulips. They bloom in May with the Darwin Tulips, some varieties even a little later.

Most varieties have tall stems.

With their dark colors and shades in bronze, mahogany, orange, purple, they make a striking "exotic" contrast with the bright colors of the Darwins.

p. 1000
\$

- *DILLENBURG, glowing salmon orange, very popular
- *GEORGES GRAPPE, large, lavender mauve

*Narcissi are outstanding in the Spring-garden
but also very useful as cutflowers*

Daffodils and Narcissi

The Spring-flower "par excellence". No other flower depicts so well the spirit of Spring.

Very popular for gardening, splendid for cutting, and forced in large quantities, the Daffodils have an important place in the world of bulbs.

For wild-gardening or naturalizing, planting in woodlands, no flower is so popular as the Daffodil and Narcissus.

YELLOW TRUMPETS

p. 1000
\$

- DUTCH MASTER, uniform yellow, good for pots

SMALL CUPPED NARCISSI

- *EDWARD BUXTON, light yellow perianth, deep orange cup
- *LA RIANTE, perianth pure white, cup deep red, medium early
- SNOWPRINCESS, pure white perianth, yellow cup, red edge
- *VERGER, pure white perianth, deep red cup, medium early

POETICUS

- *ACTAEA, large pure white perianth of perfect shape; brilliant scarlet eye. The tallest and finest Poeticus. Medium early

POETAZ

- *CHEERFULNESS, white perianth with full double center of white and yellow. Medium early
- *CRAGFORD, white perianth, orange crown. Excellent for very early forcing
- *GERANIUM, round flat pure white perianth, deep orange red cup. One of the best in this class. Strong stem, 6 to 8 flowers on a stem. Very late
- LA FIANCEE, perianth white, light orange cup
- *LAURENS KOSTER, well known forcing variety. Early and free flowering. White perianth; deep yellow cup
- L'INNOCENCE, pure white perianth, cup canary yellow. Large and one of the best whites. Early and good for forcing
- *SCARLET GEM, primrose yellow perianth, cup deep orange. Very striking and attractive
- *ST. AGNES, perianth pure white, cup orange red. Medium early
- *YELLOW CHEERFULNESS, soft yellow, double

DOUBLE DAFFODILS

- *INGLESCOMBE, uniform pale yellow. Fine formed flower of good substance. Medium early
- *MARY COPELAND, outer petals pure creamy white, inner-petals lemon yellow and brilliant orange. Extra for the garden
- *TEXAS, pale yellow with orange red petals through the center. Very attractive, early
- TWINK, semidouble, primrose with inner petals of light orange. Tall strong stem
- VAN SION, yellow trumpet and petals, large flower on strong erect stem, fine for pots

CAMPERNELLI AND JONQUILLA

ODORUS RUGULOSUS (SINGLE CAMPERNELLI), golden yellow flowers, two to four to a stem. Fragrant

ODORUS PLENUS (DOUBLE CAMPERNELLI), heads of fragrant elegant double golden yellow flowers on tall stem

ODORUS ORANGE QUEEN, rich deep orange yellow flowers, two or three to a stem. Free flowering, very striking

JONQUILLA SINGLE, sweet scented, deep yellow, with rush like foliage. Fragrant

*JONQUILLA TREVITHIAN, pale lemon yellow, clear yellow cup

The Campernelli Narcissi are fine for planting in masses for naturalizing.

VARIOUS NARCISSI (for rock-gardens)

ALBUS PLENUS ODORATUS, double pure white, very late
BULBOCODIUM (YELLOW HOOP PETTICOAT), rich golden yellow

BULBOCODIUM CITRINUS, sulphur yellow

CANALICULATUS, white, yellow cup

CYCLAMINEUS, clear yellow, reflexed petals

" FEBRUARY GOLD, yellow perianth, trumpet golden yellow

TRIANDRUS ALBUS (ANGEL'S TEARS), silvery white, two and more drooping flowers on a stem, tiny bulbs

TRIANDRUS SILVER CHIMES, very charming Triandrus hybrid, four to six flowers on a stem, nodding and very graceful. Pure white perianth, pale primrose cup

*TRIANDRUS THALIA, larger than Albus, pure white, splendid for rockgardens and also as cutflower

W. P. MILNER, sulphury white, dwarf. Dainty for the rock-garden. Free flowering

PAPERWHITE NARCISSI market price

Crocus

Crocus being among the first flowers to announce the arrival of Spring are welcome in any garden and are appreciated by every one as a sign that the dark cold wintertime is coming to an end and Spring has arrived. Splendid also in rockgardens. Some varieties are also good for light forcing.

ANEMONES

Ready September—May

Single and Double Anemones are grown in large quantities for cutflowers. They can be planted in cool houses to get them in bloom earlier. The flowers are very showy and fine for table decoration.

Both kinds and also the various other varieties are splendid in gardens and rockeries. Apennina and Blanda varieties bloom early.

As most varieties are not hardy, they are best planted in spring.

*SINGLE DE CAEN, grand mixture	
* " HOLLANDIA, bright red	
* " MR. FOKKER, blue	
* " SYLPHIDE, violet	
" THE BRIDE, pure white

BRODIAEA CONGESTA, bright blue

- * " **LAXA**, dark blue
 Brodiaea are used for gardening purposes. They need a solid covering during the winter.

CAMASSIA CUSIKII, porcelain blue

- " **ESCULENTA**, violet blue
 Camassias are fine in the garden, need a good covering in winter.

CHIONODOXA (Glory of the Snow)

Chionodoxa are very attractive little flowers blooming early in spring. Splendid especially when planted in large patches or masses. Can be left in the garden year after year where they multiply freely. Need some slight covering during the winter.

***GIGANTEA (ALLENI)**, light blue, white center

***LUCILIAE**, lilac blue, pale starshaped center

" **ALBA**, white

" **PINK GIANT**, novelty

" **ROSEA**, rose

SARDENSIS, bright blue

COLCHICUMS

Shipment mid July

Colchicums flower in August—September. If left undisturbed in the garden, they become very free flowering. They do best in cool soil which retains moisture.

They will also bloom inside without water or soil. Close to the light, in the window is then the best place for the bulbs. When through blooming, they can be planted in the garden.

AUTUMNALE ALBUM, pure white

* " **MAJOR**, soft violet

" **MINOR**, violet

LILAC WONDER, lilac violet, large flower

SPECIOSUM, rose

THE GIANT, lilac mauve, white base

CORYDALIS (FUMARIA BULBOSA), light purple

Corydalis are used in the garden. Fine amongst shrubs where they are soon established and increase freely.

CROCUS (Fall flowering)

These varieties flower in dormant state like Colchicum in late August—early September.

Orders for these kinds must reach us in June, as these bulbs are shipped long before other bulbs are ready for shipment.

ASTURICUS ATROPURPUREUS, purple

PULCHELLUS, clear blue

SPECIOSUS, deep blue, inside purple violet

ZONATUS, soft lilac, yellow throat

CYCLAMEN PERSICUM GIGANTEUM
 " **NEAPOLITANUM**

Cyclamen persicum is the well known potplant. The variety Neapolitanum is used in gardens, special in rockeries. They require a shady place.

ERANTHIS (Winter Aconite)

Eranthis flower very early. Splendid for planting in front of shrubs and in rock gardens. They will not thrive in dry ashy soil.

CILICICA, pale yellow
 ***HYEMALIS**, golden yellow

EREMURUS BUNGEI, canary yellow
 " **HIMALAICUS**, snowwhite
 " **ROBUSTUS**, pale pink
 " **SHELFORD HYBRIDS**

Eremurus are very ornamental in the garden. The Shelford hybrids are also fine for cutflowers. They need good fertile soil and may not bloom the first year after planting. It is advisable to protect the foliage in the Spring against frost damage.

***ERYTHRONIUM DENS-CANIS** (Dog's tooth violets), in varieties
 " " mixed

Erythroniums are fine in the garden and rockeries. Plant them at once upon arrival in good soil mixed with peat moss, preferably in a somewhat moist slightly shadowed place. They need slight covering in winter

FREESIA

Freesias are grown in greenhouses, are ideal cutflowers and very fragrant.

FREESIA APOTHEOSE, lilac rose, pure white center
 " **BLUE PENNANT**, lobelia blue with white throat ..
 " **BUTTERCUP**, yellow
 " **CARO CARLEE**, creamy white, extra
 " **MARYON**, violet blue
 " **ORANGE SUN**, orange yellow
 " **PRINCESS MARIJKE**, brown orange, outside purple
 " **RYNVELD'S GOLDEN YELLOW**, golden yellow
 with orange
 " **SAPPHIRE**, lilac blue, white throat, long strong stem
 " **SNOW QUEEN**, white, very large
 " **SNOWSTORM**, pure white, free-flowering
 " **FINE MIXTURE**

FREESIA GRANDIFLORA,	rose-red shades
" "	lilac-blue shades
" "	yellow and orange shades
" "	mixed colors

FRITILLARIA

Fritillaria Imperialis are very ornamental in groups in borders, they do not like dry soil. Fritillaria meleagris is fine in rockeries.

" " " FINE MIXTURE

p. 1000

MELEAGRIS (GUINEA HENFLOWER) ALBA, pure white
" " " NAMED VARIETIES
* " " " FINEST MIXTURE

GALANTHUS (Snowdrops)

Galanthus are amongst the first flowers blooming in Spring. When planted in borders, amongst shrubs and in grass, they rapidly increase. When mowing the grass the foliage of the Galanthus must not be cut before this has died off. Splendid also in rock gardens.

*NIVALIS SINGLE, pure white
" DOUBLE

HYACINTHUS AMETHYSTINUS, amethyst blue
" " " ALBUS, pure white

Hyacinthus amethystinus are of the same habit as Muscari and can be grown outside in the same way.

IRIS SPECIES

*DANFORDIAE, golden yellow, early
*RETICULATA, fine for forcing, sweet-scented, dark blue
" HERCULES, dark purple
" J. S. DIJT, bluish purple

Iris Reticulata is splendid for gentle forcing in pots.

IXIA NAMED VARIETIES OUR CHOICE

" " " " " large flowering..
* " MIXED VARIETIES

These little bulbs are mostly used by the florists for growing cutflowers. Can also be planted in the garden in sunny warm spots. They are not hardy and need a heavy covering in winter.

IXIOLIRION PALLASII, blue

Ixiolirion are planted in the fall and can permanently stay in the garden. A sunny spot is preferred and a slight covering during winter.

LILIUM

Lilium Candidum and Lilium Excelsum are the only Lilies which are ready for shipment August—September.

***CANDIDUM** (MADONNA LILY), white

--	-------

" PYRAMIDALE, white, spikes 2 feet
------------------------------------	-------

" UMBELLATUM, white, outside green
------------------------------------	------

Hardy bulbs for naturalizing, also good for rockgardens.

***OXALIS ADENOPHYLLA**, lilac rose

" DEPPEI, deep pink, reposed bulbs
------------------------------------	-------

Oxalis adenophylla is fine for gardens and borders. The reposed bulbs of Oxalis deppel are special for growing in pots.

***PUSCHKINIA LIBANOTICA**, white, shaded soft blue

" ALBA, white
---------------	-------

Puschkinia is used like Chionodoxa. Fine for mass planting, in borders and rockgardens.

Bulbs *for Rockgardens*

A well arranged rockgarden is a source of real enjoyment to every amateur gardener. When only suitable perennial or annual plants are used, rockgardens do not reach their prime until summer.

If bulbs are used, the rockgarden will be real attractive already in early Spring, long before the other plants flower.

The following kinds will be found of special merit: Tulip species: Chrysantha, Eichleri, Fosteriana Red Emperor, Kaufmanniana varieties, Praestans Fusiller, further: Miscellaneous Bulbs such as Crocus, **Muscari** (Grape Hyacinths), Eranthis (Winter Aconite), Galanthus (Snowdrops), Chionodoxa (Glory of the Snow), Fritillaria meleagris (Guinea Hen-flower), Scilla sibirica and also the later flowering Scilla campanulata varieties (Woodland-Hyacinths).

Very attractive and useful for Rockgardens, are also the dainty miniature Daffodils listed under "Various Narcissi".

Further: Anemone, Allium Moly, Erythronium, Iris reticulata, Triteleia.

RANUNCULUS

Ready August—May

Ranunculus are mostly used by florists and produce very graceful decorative flowers. Are also fine for garden purposes. Plant in Spring 1"—2" deep and lift them in fall. Must be kept dry during the winter in a cool frostfree place.

SCILLA

Scilla sibirica is very popular for planting in the garden, for mass planting and in rockgardens. They make a charming effect in early Spring.

The campanulata varieties are fine for naturalizing amongst shrubs, also in borders and rockgardens.

All varieties are hardy.

Scilla sibirica Spring Beauty is also fine for forcing in pots for florists.

BIFOLIA, deep blue, very early

Diclytra (Dicentra) Spectabilis

Gladioli

are very attractive as cutflowers
and also useful for the garden.

GLADIOLUS

Flowering period:

1 = early, 2 = medium, 3 = late

We believe there is no other class of bulbs in which so many new and beautiful varieties have been developed as in Gladiolus.

The following collection is of outstanding value in which all colors of the rainbow are represented.

No wonder the demand for Gladiolus increases from year to year.

Ideal for cutflowers and growing in almost any soil with little care, they are of great value also for gardening purposes and when planted at intervals from Spring till June, Gladiolus offer the gardener a crop of cutflowers all through the summer until the frost sets in.
